

INTERNATIONAL PHYTOBIOMES CONFERENCE

3-5 November 2026

Niagara-on-the-Lake, Ontario, Canada

Cultivating Phytobiomes: From Systems Science to Agricultural Innovation

www.phytobiomesconference.org

About the Conference

The International Phytobiomes Conference brings together scientists from the public and private sectors, alongside agricultural stakeholders, to collectively advance the understanding of the interconnected systems of plants, soils, microbiomes, insects/animals, and climate – from fundamental science to real-world innovations.

Why Attend

- Intimate scale – meet everyone
- Unique mix of academia and industry
- Strong early career presence
- Interdisciplinarity
- Single track format
- All meals and social events included

Early bird registration deadline

16 Oct 2026

Poster abstract deadline

3-5 Nov 2026

Conference

Registration Fees (Early Bird)

Student

\$575

Regular: \$625

Professional

\$750

Regular: \$800

2026 Venue

Queen's Landing Hotel, Niagara-on-the-Lake: one of Ontario's most charming historic towns, minutes from Niagara Falls and surrounded by award-winning wineries.

All sessions, meals, and evening events take place in a single venue, maximizing networking opportunities.

Focus on the science, not logistics.

Organizers

UNIVERSITY OF GUELPH | Soils At Guelph

The International Phytobiomes Conference 2026 is organized by the International Alliance for Phytobiomes Research and co-organized by the University of Guelph and the University of Waterloo.
